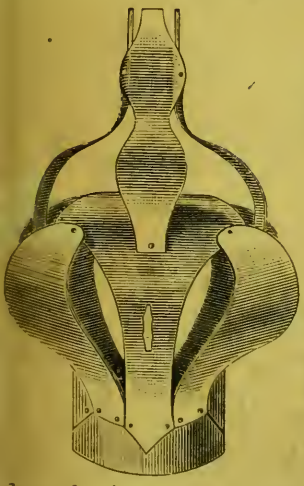
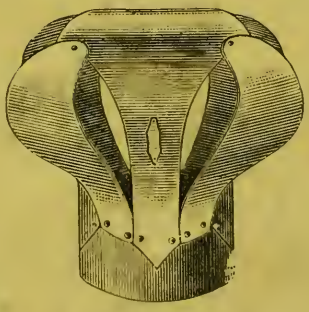
SCHOLL'S PATENT GOPHER AND SQUIRREL EXTERMINATOR.

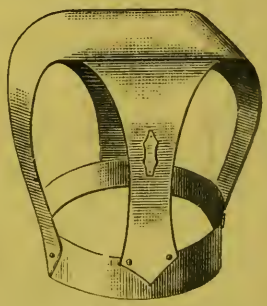
PATENTED.



The above cut, with the following description, will be self-explanatory. **A** is a plain cylinder, made of galvanized iron, converging at the bottom to the point **C**, as shown. The top has an orifice for the purpose of draught, as has also the stem through which the air is blown by the bellows **B** (an ordinary hand bellows). The handle is for convenience in carrying. The top of the cylinder is removable. It is charged with ordinary chips, or other combustible matter, and enough green leaves or grasses to make combustion slow. Fire enough can be carried for a half days work. The ell **D** is for use where the gopher holes turn. The whole weight will not exceed thirteen pounds. A small tripod, or tongs, is furnished with above to support the cylinder when in use.



The practical workings of this Exterminator has been tested in hundreds of localities, and it is absolutely worth its weight in gold to the farmers of California. For terms, or further information, address



M. SCHOLL, Inventor, 900 Vallejo St., San Francisco.

Scholl's Patent Ornamental Crown Chimney Caps.

SURE CURE FOR SMOKY CHIMNEYS.

I claim that with my CHIMNEY CAP it is not necessary to go to the expense of running a pipe to the top of your next door neighbor's house, whose roof happens to be higher than yours, to get a draught; as my Cap will remedy all defects; that it will create and increase a draught in any chimney that is free from obstructions within, sufficient to carry off all smoke, and keep itself clean, no matter in which position, angle or place it is set. Furthermore, that it will surpass anything heretofore invented for that purpose. I can also recommend it as a perfect Ventilator. For further information and particulars, inquire of

M. SCHOLL, Inventor, 900 Vallejo St., San Francisco.

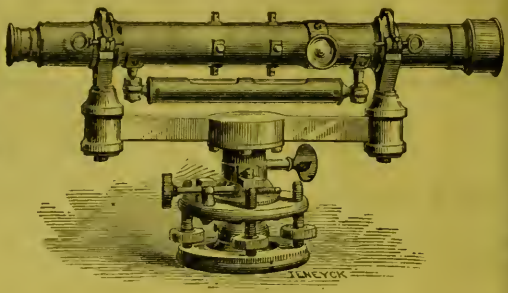
A. M. JEWELL & Co.

Gents: When one is dissatisfied with his bargains and goods, he is supposed to be allowed to find fault; per contra, when pleased, it is not usual to say anything about it; but as I am an oddity in human life anyhow, I wish to tell you the ten tanks are all up in good shape, have been tried with water, and are perfect. I am very much pleased that you put in the extra staves so we could leave out the THREE IMPERFECT ones that happened in the lot. The cooper says a better lot of wood and iron was never put together.



If you desire any reference in this section, use my name.

Use QUEEN LILY SOAP

GUARANTEED TO WASH WITHOUT RUBBING.

THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and the best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the ordinary in quality. For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

FISCHBECK & GLOOTZ,

Office: 214 Sacramento Street.

Factory: Cor Sixteenth and Utah Streets, San Francisco.

The name "**QUEEN LILY**" registered as a trade-mark, and box label patented. Any infringement will be prosecuted.

It is a great assistance as a preparatory step to the Regular Course, and as offering the fullest opportunities for the prosecution of dissection. Although attendance upon this course is not obligatory, it is earnestly recommended that all attend it who can possibly do so.

San Rafael, Marin County, California.

San Rafael furnishes to those seeking the attractions of a Country Resort, while at the same time retaining the means of speedy and frequent communication with San Francisco, the most desirable of all the adjacent suburban localities. This fact becoming recognized, and the consequent influx of sojourners and residents from the metropolis, enforced the erection and providing of a first-class Hotel.

THE TAMALPAIS, consisting of a magnificent main building with first-class appointments in all respects, and five luxuriously furnished detached Cottages, meets the requirement in every respect. It is open winter and summer, is in the center of an elegant circuit of drives, and is in the very heart of the most equable climate on the coast.

PREFACE.

The Twenty-seventh Volume of LANGLEY'S SAN FRANCISCO DIRECTORY is now before the public. It represents the same careful compendium of the city's present condition as has marked its former editions.

To the advertisers, the more suitable and better methods of display adopted will, we trust, speak for themselves.

The history of Directory publication in the twenty-nine years of Langley's San Francisco Directory, presents an experience which is shared by every first-class and well-established Directory in the United States.

Langley's Directory has expended since its inception over $400,000 and the volume as presented to-day is the result of the experience acquired by and through this large expenditure. And it follows that no expenditure, however liberal, no corps of compilers, however skillful, could produce such perfect results unassisted by the prior issues of this work, and prior experience made and acquired in this city itself.

These conclusions have always been thoroughly understood by ourselves and accepted by the people of San Francisco, as is evidenced by the unwavering support and patronage which has made this publication continuous and assured. They are only mentioned here as a justification for the warning which we again give to our business community to beware of the assaults which are periodically made by a species of guerrilla and pirating publishers who are continually springing up and who generally only live through but one publication. In their canvasses and prospectuses they flood the city with representations that their works will supersede and give information more fully and complete than "Langley's Directory," it being always *Langley's Directory* that is to be dethroned. In other instances the baser and more reprehensible method is taken, in representing their works as the "City Directory," leaving the public to infer that it is "Langley's."

A few years ago it was "Gilman's Business Directory," in 1884 it was "Bowser's Business Directory," and during the season just passed it was "McKenney's Pacific Coast (?) and Business Directory of San Francisco," which was to dispense with any further need of Langley's. How far any of them fulfilled their promises those of our community who patronized them can best attest.

In the years to come, others of the same ilk may be confidently looked for, and we are only discharging our duty in this warning. Hence the public, for its own security, must look with the closest scrutiny upon proposals asking Directory patronage. Very respectfully,

W. H. L. CORRAN, COMPILER.

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure

your box is locked before leaving it. Upon a second alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of thirty-one crank boxes and one hundred and fifty-six automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and forty-four miles of wire, divided into twenty-one circuits, of which thirteen are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

Any changes and directions for the benefit of the public will be at once published in the Daily Alta.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, show the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco over one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1885 (not including Chinese) at 8,594. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to

SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are ninety-three districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

PUBLIC STREETS, AVENUES, SQUARES, PLACES,

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872,

AND SUBSEQUENT ORDINANCES.

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. *See, also,* Prominent Places, end Street Directory.

(*b*) Street not opened. (*c*) Fractional blocks, one hundred numbers allowed for first two blocks. (*d*) Fronting the bay. (*e*) Street ends. (——) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.
